

# Morris Bank COVID-19 Reopening Plan

As many of you know, Governor Kemp lifted the state-wide shelter-in-place order on May 1, 2020 and has implemented a phased plan to reopen the state of Georgia for business. Morris Bank, along with many other organizations, have closely studied and monitored this situation and have leaned heavily on the guidance of local, state, and national level health officials. Our top priority is to sustain the health and well-being of our staff and customers while doing all we can to foster the economic pulse of our local communities.

At this time, we are allowing customers to conduct business in our drive-thru teller lanes as well as in our bank lobbies during our normal business hours. Below are strategic operations that will be implemented to ensure optimal safety for all team members and customers.

- **Customers are given the option to conduct business through our teller lanes as well as our indoor lobbies, which opened on Wednesday, May 13th.**
- ***As a reminder, if you have tested positive for COVID-19, have related symptoms, or believe you have been in contact with the virus in the last 14 days, PLEASE take the proper precaution and do not use our lobby.***

- Walk-ins will be accepted; however, we encourage all customers to call your local branch and make an appointment ahead of time if you plan to use the lobby.
- There will be a maximum capacity for each of our branch lobbies which we will be monitoring. If we reach capacity, we will ask customers to wait six feet apart outside until we are ready to safely serve you.
- Customers are encouraged to wear masks inside the building and are required to maintain the recommended six feet between one another. It is also required for customers to remain behind the clear shields located at teller lanes and customer service desks.
- Our goal is to ensure that our customers feel safe conducting business with Morris Bank, whether it's in our lobbies or in our drive-thru lanes. To do this, we will continue to enforce strict sanitation requirements at each of our facilities throughout the day.
- For those who wish to maintain their distance, we offer Electronic Banking Services on our website and through the Morris Bank Mobile App for FREE.
- As always, our ATM machines will remain open 24-hours.

Thank you for your continued patience and cooperation during this time.  
We appreciate your support, and we thank you for **Banking Blue!**
